Reference: 30 Day Post-General FEC Report (10/14/04-11/22/04)

The ending balance of a negative \$128,846.42 is correct for this FEC report. The reason for the negative balance is due to the numerous disbursement checks that were processed on the 22nd of November. These checks did not get mailed on the 22nd but were mailed at a later date.
